PHILOSOPHY OF COLOUR ENERGY

Colour is pure energy. Each colour of the rainbow has a different frequency and power that reaches us through light rays. Light stimulates our body's endocrine system, which is connected to our energy centers (chakras). All organs, body systems and functions are connected to these energy centers. Light consists of the seven colour energies: Red, Orange, Yellow, Green, Blue, Indigo and Violet.

Our body absorbs light energy for nourishment on a daily basis. As well, our other senses can receive additional colour energy through a balance of different coloured foods, herbs, vitamins, minerals, gemstones, aromatherapy, essences, sound, colour therapy eyewear, clothing, decor and colour bathing.

INGER NAESS & COLOUR ENERGY

Inger Naess, founder of COLOUR ENERGY, first became aware of the role colour plays in our lives when she was a kindergarten teacher. Inger realized that the different personalities of the children in her classes corresponded and responded to the different energies of colours.

For several years, Inger studied, in depth, the history of colour and the effects of colour on people. In 1989, Inger began the development of a full line of colour products as an alternative energy source to the sun's natural healing colour energy rays. Watch for COLOUR ENERGY's expanding line of wellness products which will include more aromatherapy products, skin care, educational material and courses.

"Light is life and colours are the language of light" – a philosophy Inger lives by!

COLOUR THEORY

The beneficial influence of colour has been heavily documented throughout history from the ancient Egyptians to great writers and thinkers such as Sir Isaac Newton, Johann Wolfgang von Goethe and Rudolf Steiner. Today, many specialized therapists and alternative health practitioners use colour in their healing methods.

Scientists have shown that colour not only affects one's psychological disposition of mood, energy, feelings and behaviour, but it can also have a real impact on one's physiology. Studies have proven that the colour red will increase heartbeat, blood pressure and body temperature. It is interesting to know that people who have the same illness avoid the same colour.

So why do we prefer certain colours and avoid others? If we analyze our different reactions to various colours we can then learn much about ourselves and how we use energy. This concept may be difficult for some to grasp, as colour has no material existence. With music we hear sound but we don't see the sound waves, yet certain songs may make us happy or sad while others energize or relax us.

Imagine the full awakening of your senses when you combine music with the energy from colour bathing and aromatherapy!

COLOUR ENERGY MANDATE

The concept of COLOUR ENERGY is to educate and provide people with products they can use to tap into the power of colour.

TESTIMONIALS

I have been reading about Colour Energy for some time and finally tried one of your Colour Baths the other day. WOW! I must say even though I believe and have experienced many times how colour effects me, I still held some scepticism about Colour Baths. Well, not any more. By the time I climbed out of my vibrant green bath (20 minutes only) I was a new woman in a way that no other bath has transformed me. I'm sold. I have an Esthetic/ Reflexology Studio in my home and am very interested in carrying your Colour Baths to retail in my Studio to continue my support of clients on their journey to balance and happiness.

Colette Freeman, Prince George, BC

I love getting my products each month but none has given me the thrill of the Colour Bath. I was a bit skeptical at first but when I saw the brilliant red in my tub, I was sold. After letting the color surround me for a short while, I realized that the Colour Energy really works.

A COMPLETE BODY, MIND & SOUL TREATMENT

COLOUR ENERGY carries several products that were developed to strengthen your chakra system and the various layers of your aura. A simple yet powerful method to support your body's multi-dimensional vitality levels, is a 20 minute COLOUR BATH or footbath treatment together with several drops of COLOUR ENERGY's corresponding Chakra Blend and 2-3 Tablespoons of our authentic Dead Sea Salts.

The Dead Sea Salts help to prepare your body for the absorption of the colour's vibration. Dead Sea Salts assist in releasing toxins that create energy blockages and then replenish the body with their high content of essential minerals. The elements of Dead Sea Salts help to rid your body of toxins so that your internal organs can function at a normal capacity, which in turn creates a vibrant aura. Dead Sea Salts, COLOUR BATH and a therapeutic Chakra oil facilitates an incredible cellular treatment!

Further enhance your day by wearing the same colour, place a correlating gemstone in your pocket, eat that colour or wear the colour therapy glasses. Awaken and energize that chakra for the whole day... and feel the power of COLOUR ENERGY!

WHY BATHE IN COLOUR?

Each colour of the spectrum of light vibrates at a different frequency thereby giving you its own special qualities and influence. Colour has its own powerful language. Since our human development begins in a water environment (the womb and giver of life), imagine the strength and power when colour and water are combined!

WHY WAS COLOUR BATH MADE?

Inger Naess, the founder of COLOUR ENERGY, understood the power of colours' vibration and she wanted to find an easy way to help people bring healing into their life. What could be simpler than putting colour into your bath and immersing yourself in it?

COLOUR BATH is fun and an easy way for our body to absorb the benefits of vibrational frequencies. Bathing in the natural element of water combined with colour creates an incredible healing atmosphere that the body recognizes and enjoys!

WHAT IS COLOUR BATH MADE OF?

COLOUR BATH is a non-toxic organic combination of elements, water and natural glycerine. Contains no FD&C colours, perfumes or oils, which makes it ideal for children and people with sensitivities. Colour Bath is not a synthetic agent or a chemical dye and therefore will not stain your bathtub.

WHY NOT JUST USE FOOD COLOURING?

Food colouring is a toxic chemical dye and can also stain your skin. Whereas, COLOUR BATH is organic and environmentally safe. COLOUR BATH works on a psychological level and therefore has a positive effect on you. Also COLOUR BATH's colour intensity allows you to reap the benefit of a colour's healing energy.

HOW CAN I LEARN MORE ABOUT COLOUR?

The COLOUR ENERGY Book, An Introduction to COLOUR ENERGY Booklet and the COLOUR ENERGY Colour Card are simple educational materials to start with. You can also purchase the COLOUR ENERGY Personality Test (CEPT), which is a fast and easy way to do an accurate colour analysis. COLOUR ENERGY also offers various colour courses (call for more details).

TESTIMONIALS

As a small child enduring much abuse, about the only thing that gave me hope was color. As a therapist and Reiki Master teacher, I incorporate color into all my healing sessions. And I restore myself by taking Colour Baths before work. My daytime job as a crime victim counselor is stressful and intense. The baths before work in the morning help me stay balanced and sensitive in my work with people. Just wanted to thank you for your understanding of the healing energy of color.

Lynne Newman, Monroe, NY

My eleven-year-old son took a Green bath. Prior to his bath he was grumpy and in a miserable mood. After taking the Green bath he asked for a hug.

HISTORY OF DEAD SEA SALTS

For thousands of years, the minerals found in the Dead Sea have been reported to offer extraordinary benefit. In the Bible it is mentioned that the Queen of Sheba was presented with Dead Sea Salts from King Solomon upon her visit to the Holy Land. As well the Empress Cleopatra apparently urged Marc Antony to conquer the Dead Sea region so that she would be guaranteed a bountiful supply of the Dead Sea minerals.

TESTIMONIALS

I have been promoting anti-aging products for several years and am always looking for tools that support beauty and wellness. When I tried your Dead Sea Salts for the first time (using only 2 Tablespoons as suggested) I was surprised at the results. After the bath my skin felt fantastic (very soft and supple), my body was extremely relaxed and no muscle aches afterwards. I also experienced a very detoxifying effect. Powerful, powerful!

I plan on promoting your Salts and using them myself regularly as part of my anti-aging treatments. As well I have been using your Rose Hydrosol Spray and have noticed that my skin is softer and no longer dry.

Doreen Kilkeny, Maple Ridge, BC

COLOUR ENERGY® DEAD SEA SALTS

Since ancient times Dead Sea Salts have been known for their therapeutic and healing properties. Our salts are 100% pure authentic Dead Sea Salts and are unscented, contain no fillers or additives.

The Dead Sea is one of the world's richest source of minerals. Therefore, the salts that come from the Dead Sea have a high mineral content. Dead Sea Salts are noted for their therapeutic qualities that help relieve sore muscles, arthritic and rheumatoid pain, psoriasis, eczema, tension headaches, joint and foot aches while adding nourishment and softness to skin. They can assist with certain skin conditions by restoring lost essential minerals thus giving the skin a more healthy glow and youthful appearance. As the salts absorb moisture they help detoxify the body. This includes absorbing cellulite and toxins through the pores of the skin.

THE HEALING POWER OF THE DEAD SEA THE NATURAL WAY

The Dead Sea is well known for its natural healing powers that the ancient Egyptians used in their beauty treatments.

Dead Sea Salts are mined directly from the Dead Sea, which is the lowest point on earth. The Dead Sea lies 400 meters below sea level in the Jordan Valley between Israel and Jordan. Dead Sea Salts have a higher concentration of minerals than any other sea salt and contain more than 25 different types of minerals. Its main minerals are: Magnesium, Sodium, Potassium, Calcium, Bromide, Iodine, Lithium, Sulphate.

Calcium, Sodium, Potassium and Magnesium are the most abundant cations (an electro-positive particle/ion) in the human body and Dead Sea Salts contain these four elements (and more!). The Dead Sea contains 50% more bromide and 15% more magnesium in concentration than the ocean, making the salt beneficial for significant improvement in skin conditions and other physical symptoms. Sea Salts are also known to cleanse the auric field of negativity.

The intense salinity of the Dead Sea, with its extreme content of salts and minerals, does not exist anywhere else in the world. Dead Sea Salts contain high concentrations of Magnesium (aids in maintaining the proper pH Balance), Sodium (helps to maintain water balance within the body), Potassium (supports muscular elasticity), Calcium (anti-allergic effect and bone support), and Bromine (relaxing effect and anti-inflammatory effect).

Water mixed with Dead Sea Salts has been shown to promote a greater feeling of well-being. As well, since an anti-wrinkle effect is often a very desired result from the consumer viewpoint, it is quite certain that Dead Sea Salts will be a regular and successful seller in today's health and wellness market.

TESTIMONIALS

Some other oils that I have used I had to use twice as much to get the same results.

Cassandra Belisle, Simcoe, ON

I heard about you from my aromatherapy teacher. My education in aromatherapy so far is completing the Foundation Certificate course with Gayle Cooke at Douglas College. She always prized your products as being authentic and genuine and she recommended them as being the best. I have bought some oils through her and I love them. I also compared them with other brands on the market and yours are by far the best smelling (since this is how I at this moment in my aromatherapy career can judge the difference). They have incredible depth and spectrum.

It is all I can do not to open all of these bottles and smell them, but I have been into the lavender and it is just wonderful. So much nicer than other of what was supposed to be really high quality, and may have been but just didn't have the same awesome smell. Really looking forward to the others.

Nothing has ever, ever sold in the history of my store being open, as fast as the Colour Energy Chakra Blend samplers. We received them on Friday and by Tuesday they were all gone.

Erin Middlebrooks, Dragon House, Sidney, BC

I am very interested in changing over the line of essential oils I now carry to your line. I've been carrying your bath envelopes for many years and I think your line of aromatherapy would be helpful to the sales of all the chakra related products that I carry. I look forward to hearing from you.

TESTIMONIALS

... One I really liked was IMMUNE – after using all sorts of very expensive athletes foot products and the athletes foot kept coming back I tried IMMUNE on my feet. It worked and healed all the cracks in my feet. It also worked rather well on my shingles. Both athletes feet and shingles responded to the IMMUNE. Also the headache remedy worked great. Thanks. I would like to order more IMMUNE.

TESTIMONIAL

... I wish to thank you, once again, for your kindness and consideration towards my aromatherapy students and graduates. From the start, Ashbury's Aromatherapy (a division of COLOUR ENERGY) has provided all the carrier oils, hydrosols and many essential oils needed for the student labs. I have always found your service and products to be of the highest quality. But as an instructor, I am most appreciative of the time you have taken to help my students and graduates select their oils, carriers, bottles and other aroma-therapy supplies upon beginning their practice. It is not common to find such help, in today's competitive, fast-paced world.

Personally, I have appreciated using Ashbury's products in my own private practice. Your quality has been consistently high, making the results I get with clients consistently high as well. This is a win-win situation for everyone!

COLOUR ENERGY® HYDROSOLS

Hydrosols are the by-product of the steam distillation process that produces essential oils. Hydrosols contain certain qualities of the essential oil, as well as the water-soluble components of the plants.

Used as astringents, toners and healing sprays, hydrosols are popular in esthetics and spa treatments. Rosewater (rose hydrosol) is most popular for its scent as well as its anti-aging and healing benefits and is also a common additive in lotions and creams.

EVERYDAY USES FOR HYDROSOLS

In addition to being naturally pure, hydrosols are gentler than most skin toners and therefore are an excellent addition to a skin care regimen.

During hot summer days or when travelling, hydrosols may be used as a facial spray to cool, revitalize and hydrate the skin and instantly rejuvenate your mind and spirit. Spray a few squirts into the air as a natural and refreshing room spray.

Hydrosols are a wonderful addition to a bath or use on a cold compress. They are safe to use for children, the elderly or those with chronic afflictions. Try adding 10ml/.35oz of your favourite hydrosol to a jar of our Dead Sea Salts or enhance COLOUR ENERGY's all natural unscented lotion or shampoo with several drops.

HELICHRYSUM – A perfect toner for Rosacea, couperose (thread veins) and irritated skin. Helichrysum is a powerful anti-inflammatory and helps alleviate rashes, burns of all sorts, bruising, swelling and skin conditions such as eczema. Known for its gentle care regarding sensitive and problem skin.

LAVENDER – This hydrosol is soothing for hot flashes, sunburns, itchy skin and sunstrokes. It is a gentle antiseptic and helps to calm insect bites. As well, it is suitable for all skin types and skin problems such as eczema, razor burn, etc.

ORANGE BLOSSOM – Calming, balancing, hydrating, rejuvenating, uplifting, anti-depressant, stress reliever, mildly astringent and suitable for all skin types.

PEPPERMINT – Refreshing, deodorizing, cooling, anti-bacterial, refreshing mouthwash, clears sinus congestion, excellent as a facial and body spray in summer.

ROMAN CHAMOMILE – This hydrosol is an excellent stress buster. Use for its anti-inflammatory benefits, as a compress for migraines or to relieve diaper rash and teething. Suitable for sensitive, inflamed, itchy or dry skin, sunburn or for puffy eyes. As a mild astringent chamomile is beneficial in delicate situations.

ROSE – Rose hydrosol is a wonderful skin toner as it known for its anti-aging benefit as well as it revitalizing, regenerative, hydrating, nourishing and anti-inflammatory properties. Use as a gargle for sore or swollen throats.

All Hydrosols are available in 120ml/4oz, 240ml/8oz and bulk sizes.

COLOUR ENERGY® CARRIER OILS

Carrier oils, also known as base or vegetable oils, are used to dilute essential oils before they are applied to the skin. Also provides lubrication for other ingredients. Choose from COLOUR ENERGY's line of therapeutic quality carrier oils:

APRICOT KERNEL OIL

(Prunus Armeniaca)
Country of Origin: USA

Apricot Kernel Oil is well suited to facial and beauty treatments as it absorbs quickly and moisturizes. It is used to protect and nourish the skin. *Warning: nut allergy.*
Shelf Life: 12 months.

COCONUT OIL

(Fractionated)
Country of Origin: Holland

Coconut may actually help to filter the sun's rays, explaining its reputation as a tanning oil. It is an emollient to both skin and hair. Some practitioners prefer Coconut for its light texture and long shelf life. It is easily absorbed making it a good base for a massage oil. *Warning: nut allergy.*
Shelf Life: 12 months.

EVENING PRIMROSE

(Oenothera biennis)
Country of Origin: China.

Evening Primrose oil is invaluable for Aromatherapists. It contains high concentrations of Linoleic acid and a small percentage of Gamma Linoleic acid (fatty acids). Used externally, Evening Primrose is healing to eczema, dry or scaly skin, dandruff, and small scrapes or bruising. Blend it at 10%–30% with another carrier oil for use in massage.
Shelf Life: 12 months.

CARRIER OIL FACTS

Shelf life of all carrier oils will be extended if refrigerated.

GRAPSEED OIL

(Vitis Vinifera)
Country of Origin: Italy/France

This is many practitioners favourite base oil as it glides and absorbs well without greasy residue. Similar to Evening Primrose, it contains a high percentage of Linoleic acid, but no Gamma Linoleic acid. Good for acne and oily skin, it is a good oil for those whose skin does not seem to absorb oils easily. This is one of the most common oils used for massage. *Caveat: Continual use will permanently strain linens.* Shelf Life: 12 months.

HAZELNUT OIL (ORGANIC)

(Corylus Avallana)
Country of Origin: France

Hazelnut oil penetrates well and is thus useful for acne and oily skin as it can clean pores, oil glands and hair follicles. It contains a large percentage of Oleic acid and small amounts of Linoleic acid (fatty acids). *Warning: nut allergy.*
Shelf Life: 12 months.

JOJOBA OIL (ORGANIC)

(Simmondsia Chinesis)
Country of Origin: USA

Jojoba oil is actually a plant wax. Sebum—our skin's own oil—actually dissolves in Jojoba and has a very similar structure. This means that Jojoba can absorb excess oil or can replace necessary oils, making it beneficial for both overly dry and overly oily skin types. It contains Vitamin E giving it a extended shelf life.
Shelf Life: Nearly Indefinite.

ROSEHIP SEED OIL (ORGANIC)

(Rosa Mosqueta or Rosa Rubignosa)
Country of Origin: Chile

Use Rosehip Seed Oil for dry, scaly, fissured skin, dull skin, eczema, psoriasis, over pigmented skin, scars, ulcerated veins, and as a protector after burns or trauma. It contains Gamma Linoleic acid, Linolenic acids, Oleic acid, and Palmitic acid. Rosehip Seed oil is a skin regenerator and good for mature skin. Avoid with acne and oily or blemished skins.
Shelf Life: 12 months.

SESAME SEED OIL

(Sesamum indicum)
Country of Origin: USA

Sesame is very stable, and is best used on those with dry or damaged skin. It contains Vitamin E, minerals, proteins, lecithin, and amino acids. In combination with Evening Primrose or Rosehip Seed oil, Sesame is wonderful at relieving eczema, psoriasis, rheumatism, arthritis, and softening all skin types.
Shelf Life: 12 months.

ST. JOHN'S WORT – IN VIRGIN OLIVE OIL

NATURAL LIQUID DEODORANT

The Deodorant Liquid has the same components of natural Potassium Alum as the deodorant stone, but is now available in a liquid form through COLOUR ENERGY!

Also the liquid spray allows for easier application through body hair and is simple to use. The Deodorant Liquid will not stain clothing and is aroma free, although one could add a personal scent (ask about our favourite oils to add). The Natural Deodorant Liquid is environmentally friendly and safe to use daily as there are no chemical propellants. Just spray on the deodorant, wait for a few moments and you are protected. Available in 120ml/4oz or 240ml/8oz spray bottles.

UNSCENTED & NATURAL PRODUCTS

COLOUR ENERGY carries several unscented products so that you can create your own line of therapeutic hair and skin care. Simply add 3-5% essential oils to unscented base products. Available in various sizes, including bulk.

UNSCENTED SHAMPOO, CONDITIONER, SHOWER GEL & BUBBLE BATH

COLOUR ENERGY is committed to providing the most natural hair and body care products while maintaining the safeness. Our Shampoo, Conditioner, Shower Gel and Bubble Bath are free of Sodium Laural Sulphate, Cocamide DEA and foaming agents. The emollients and humectants we use are natural sources (Aloe Vera, Panthenol and vegetable glycerine).

All our hair and body care products are made with a minimal amount of preservatives to prolong the shelf life and prevent bacteria growth. Our unscented products are manufactured to be "people friendly" and effectively cleanse without stripping the natural oils from the hair and skin.

ALL NATURAL, UNSCENTED MOISTURIZING LOTION

Made from all natural ingredients, this superior lotion is excellent for all skin types as a face or body lotion. Add your favourite essential oil or blend to enhance the moisturizing experience. Created for everyday use, for adults and children.

ALL NATURAL, UNSCENTED ESSENTIAL OIL DISPERSANT

Dispersant (solubilizer) mixed with essential oils is used to uniformly disperse the oils in water. Essential oils should never be applied directly to the skin without a carrier, such as water, an unscented lotion, shampoo, conditioner or any of our carrier oils listed on p. 13. Therefore, when making room or body sprays, facial mists and other skin care products, it is recommended to mix your aromatherapy oil or blend with a dispersant prior to adding other ingredients, including your bath.

ALUM VERSUS ALUMINUM:

Alum and Aluminum are chemically different. Alum is not absorbed due to its ionic charge and therefore is safe to apply to the skin. Whereas, soluble forms of Aluminum can be absorbed—and has been linked as a contributing factor to rising rates of breast cancer—and causing energy blockages in your lymph system.

The following is an excerpt from "The Vancouver Sun" newspaper, January 16th, 2004

A product recommended by such health care providers as the Mayo Clinic and the Walter Reed Medical Clinic, the Natural Deodorant Liquid has been used for post operative cancer patients receiving radiation treatment, as a replacement for anti-perspirants and deodorants.

BLENDING INFORMATION:

1 ml/.035oz of liquid is approximately 25 drops. Use a ratio of 3% to 5% essential oils to unscented base products (such as COLOUR ENERGY's shampoo, conditioner, shower gel, bubble bath, carrier or massage oils) for the best results.

HEAVENLY SCENT ULTRASONIC AROMATHERAPY DIFFUSER, HUMIDIFIER & NEGATIVE IONIZER

This Ultrasonic Aromatherapy Diffuser is a state-of-the-art system that ionizes essential oil molecules into the air while enhancing the oil's biological effects – ideal for improving the atmosphere of any home, workspace or enclosed area.

Heat-free diffusion constitutes the most effective method for essential oil distribution as the dispersed oils remain suspended longer in the atmosphere, penetrating better in the respiratory system. Whereas, heat causes the rapid evaporation of the more volatile components of the oil, resulting in a loss of the natural fragrance and their healing abilities.

Water with a few drops of a COLOUR ENERGY's therapeutic essential oil are simply and quickly distributed via the Diffuser's ultrasonic vibration (2.5 million vibrations per second), which completely breaks the essential oil into tiny micro-particles. This enables the body to use the healing ionized water particles as you breathe in their wonderful aroma. These small molecules have a deeper biological effect as they are more easily absorbed by the lungs for greater therapeutic effect.

The "instant vapour technology" of our Ultrasonic Diffuser allows you to instantly enjoy the benefits of aromatherapy. This process is the most powerful and effective means of dispersing essential oils into an extremely fine mist of micro-particles and millions of molecules without heat for maximum health benefits. Also, most Nebulizer manufacturers do not recommend that you use thick oils such as Patchouli as they can clog their system; however, our Ultrasonic Diffuser can break apart even heavy oils into micro-particles!

The Ultrasonic Aromatherapy Diffuser has a built-in interval timer allowing for continuous dispersing or intermittent cycles (economical and beneficial for all-day dispersing of oils). The easy to fill plastic cup needs no cleaning or additional care. An automatic shut-off feature is activated when water reaches the minimum level.

BENEFITS OF THE HEAVENLY SCENT IONIZER AROMATHERAPY DIFFUSER

Ionizers may protect against germs in the air, resulting in decreased irritation that is caused by inhaling various particles that make you sneeze, cough, or have a throat irritation. Other uses:

- Purifies the environment and minimizes airborne pollutants (bacteria, viruses and other microbes, dust, pollen, animal dander, mold spores)
- Reduces respiratory problems (colds, flu, hay fever, asthma & allergies)
- Creates a pleasant aromatherapy atmosphere and neutralizes most odours including smoke
- Helps symptoms such as Seasonal Affective Disorder, chronic fatigue, exhaustion, migraines, headaches, sleeping problems, etc.
- Improves mood and helps alleviate depression

Did you know that waterfalls create approximately 100,000 negative ions per cubic centimeter? The Heavenly Scent Diffuser produces 85,918-91,182 per/cc!!!

Better air improves your health, energy and mood. A roomful of Ultrasonic dispersed aromatherapy can make you feel magically refreshed. The Heavenly Scent Ultrasonic Aromatherapy Diffuser is not only an ionizer but is also a humidifier! IMPORTANT NOTICE: We only recommend COLOUR ENERGY's therapeutic essential oils to be used for diffusion due to the guaranteed quality.

SIZE: 3.5"l X 3.5"w X 8"h

IONIZER RESEARCH:

Ion researcher Michael Terman, PhD at Columbia University in New York has proven that negative ion generators relieve depression as much as antidepressants in people with winter and chronic depression.

"Generally speaking, negative ions increase the flow of oxygen to the brain; resulting in higher alertness, decreased drowsiness, and more mental energy," says Pierce J. Howard, PhD, author and director of research at the Center for Applied Cognitive Sciences in Charlotte, N.C.

Technically: "Ions are charged particles in the air that are formed in nature when enough energy acts upon a molecule such as carbon dioxide, oxygen, water, or nitrogen to eject an electron from the molecule leaving a positively charged ion. The displaced electron attaches itself to a nearby molecule, which then becomes a negatively charged ion. It is the negative ion of oxygen that affects us the most." From "Whole Self", Spring 1991, an article entitled "Ions and Consciousness."

CARD TESTIMONIAL

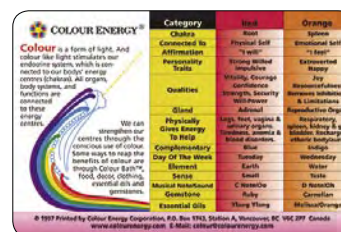

... About a month ago a friend gave me the exquisite Colour Energy Chart and I keep it in the pages of our family Bible in my mom's room. You see, my mother Bilia was in hospital for a month, diagnosed with terminal uterine cancer, metastasized to her legs. I, her only daughter, brought her out of hospital, against doctor's advice, essentially "to die" as the doctors told me. Well, I knew differently. I placed mom's bed in a room in her home with the most windows, threw away the heavy curtains and hung long swaying, translucent fabrics from the windows, red, green, purple... the room filled with natural light as well as light streaming thru the silk and chiffons. At any rate, within a week her attitude, appetite and health improved dramatically... to the surprise of the doctors and nurses. I've used the Colour Chart to help me decide what to change and add to her room. I've already learned so much from it. And in pursuing your site this evening I listened to the music from your CD. What a wonderful gift to us. Thank you for this wonderful music from the Rainbow. I plan to purchase one to play for mom and I. Bless you once again, on behalf of mom and I for your wonderful work.

Colourfully yours,

Loved the affirmations. They are wonderful and so helpful - and timely. Thanks so much. I am loving Inger's book.

Lynn Isom, Vero Beach, FL

In response to examining "Colour Energy" in a store in Rockport, MA, I bought the book and a packet of each Colour Bath. I really like the book and appreciate your observations in colour.

Jamie Howards, Bedford, MA

This book lets you know how to find your personal colour as well as those of others. Tells you characteristics of each colour and their positive and negative effects on you if getting an overload of one. What colours you should surround yourself with if you are a BLUE person... I got sucked into this book and ended up spending 2 hours in the bathtub reading it!

Internet Review

I received your book today from Pacific Spirit in Oregon and find it fascinating! Looking forward to my Colour Energy Chart as learning more about myself and others is a spice of life!

Anneli Kaniala, OR

It sure has opened my eyes to the powers of energies of the rainbow! Fascinating and very insightful!

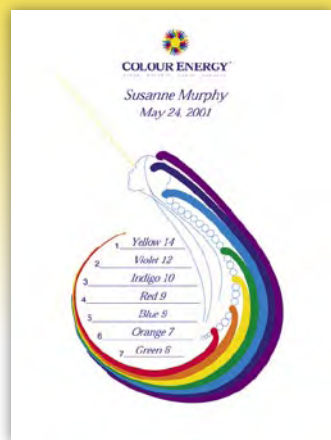

Felicia Wimmer, CA

I really enjoyed the book, and have tried a couple of the baths and I really enjoyed them. I never realized, although I always suspected, how powerful colour is.

TESTIMONIALS

Thank you so much for the test results. The two colours the test said I needed - red and violet - also make so much sense to me. It's like I already knew it, but it was astounding to have a stranger tell me that as the result of a questionnaire. I'm very impressed!... because of the truly horrific educational experience we had there, I developed an unreasonable dislike of violet... Right after I received your test results I took a Colour Bath mixing violet and red together - it turned a lovely deep magenta and was a wonderful experience.

Linnea Pearlman
Ann Arbor, MI

I have just received my personalized Colour Energy Chart. I am amazed at how quickly I received it - thank you so much. It is very interesting; fascinating, actually. And I would say, an accurate account of my personality. I will recommend this to others who could benefit from an assessment like this. And I will be sure to pick up some green Colour Bath, take more walks in the woods and listen to more nature CD's.

From a "Yellow/Violet" friend,
Elaine Uskoski, Caledon, ON

I have discovered that a very effective way to begin a working relationship with a new client is to administer the Colour Energy Personality Questionnaire. The CE test works with the conscious mind and behaviour.... After all, the client is passive, no verbal exchange. It's quite amazing to see that at an unconscious level we are seeking connections with Spirit (brow and crown chakra), yet at a conscious level we're unaware of that and may even deny it. This particular phenomenon has happened many times in my work. For practitioners who do any ongoing coaching or counselling, these insights are fertile ground.

The CD, its meditation and music are offered with love and light to expand the conscious awareness for all of humanity. The purpose of Crystal Light Therapy is to help increase energy in your physical body by opening, expanding, purifying and exercising your chakras so that they will function at their optimum level. The intention of the CD is to help you experience more harmony and balance in your life.

This powerful Crystal Light Therapy CD comes with instructions and is to be used in combination with a set of special gemstones available only through COLOUR ENERGY. The CD contains no artificial music enhancements so that the purity and clarity of the healing sounds is preserved and offered to you wholly.

CRYSTAL LIGHT THERAPY™ SETS

The Crystal Light Therapy (CLT) meditation CD has been designed to be used in combination with specific gemstones while in the comfort of your own home. The specially cut Basic Crystal Light Therapy set includes seven chakra gemstones, two large quartz hand wands and two hematite grounding wands. This set is the foundation of this work. It simultaneously grounds and opens your energy, respectfully and kindly. Comes in 100% organic cotton bag.

COLOUR ENERGY also offers an inexpensive alternative to the Basic Crystal Light Therapy Set, which includes 9 tumbled gemstones (7 chakra stones and 2 hematite grounding stones). As well, COLOUR ENERGY is the main distributor of various Practitioner Crystal Light Therapy Sets.

The Crystal Light Therapy CD together with the set of crystals, was created for personal use and not intended to replace a professional treatment performed by a certified Crystal Light Therapy practitioner. To learn more about Crystal Light Therapy contact a COLOUR ENERGY representative.

Special Note: From the very start and through every step along the way, Marilyn and Tohmas Twintress listen to the Stones that become a CLT set. They listen to the stone's heart and its spirit to be sure that they are being formed, respectfully, to help Patricia and you do your specific healing work. That is how Marilyn and Tohmas very happily contribute – they offer stones that have been honoured and blessed so that they can offer their full energetic gifts to all who come in contact with them.

We lovingly receive the stones from Brazil, where they are carefully cut. After the stones are shaped, they are placed in an organic cotton pouch that has sewn in separators to protect the stones from damaging each other.

THROUGH THE RAINBOW CHAKRA CD

POWERFUL AND UNIQUE... THIS CHAKRA BALANCING CD IS A MUST FOR INVIGORATING AND BALANCING ONE'S ENERGY SYSTEM.

Created by a famous Norwegian astrologer, writer and musician, Morten Alexander Joramo uses a single note from several octaves in each song. This brilliant series of chakra balancing music was produced so that each song would resonate with a chakra allowing the release of any blockages, freeing the flow of energy throughout the body. Combining vibration with intent, Joramo cleverly incorporates the power of each chakra center in his music.

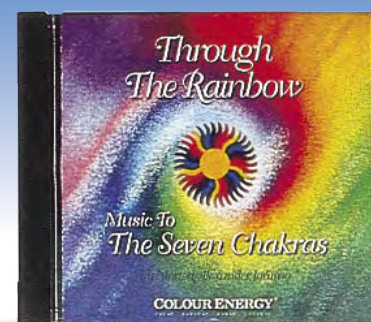

For example, the Red energy song utilizes a driving beat projecting Red's motivating and energizing energy. Whereas, the Orange song begins with sounds of a thunderstorm (the water element expressing the flow and movement of the Orange power). This CD is used in yoga, meditation classes and during treatments. An amazing chakra balancing CD!

MUSIC TO THE 7 CHAKRAS

Through the Rainbow was created to aid in stimulating our body's energy centers. The music was composed in the sequence of the rainbow's energy to help align the chakras and may invoke various emotional, mental and physical responses.

- **Song One—RED Root Chakra:** This is a difficult chakra to meditate to. Instead allow your body to sway passionately to the earthy weight of the rhythm. This music was designed to bring up your primordial and primitive depths.
- **Song Two—Orange Spleen Chakra:** You can still move around to this music or you can sit quietly and feel what the music brings up in you. This chakra is related to our social and religious functions and connections.
- **Song Three—Yellow Solar Plexus Chakra:** Our consciousness is preoccupied with registering and acting on what is happening on our planet, so feel this powerful intense music and express yourself with movement.
- **Song Four—Green Heart Chakra:** Feel how this center is the midpoint of both the inner and outer Universe – sit and feel the peace, love, nature and the earth – life around you! This piece of music will reveal how centered and harmonically integrated you are within yourself and with your surroundings.
- **Song Five—Blue Throat Chakra:** It is very important to use the voice. Rhythm, communication and thinking are the key words here. Sing out loud and uninhibited! If this is difficult for you, this center may be blocked, so keep on trying!
- **Song Six—Indigo Brow Chakra:** This music will help to bring you across to the invisible world! This music was created to affect both your left and right hemispheres.
- **Song Seven—Violet Crown Chakra:** In this chakra all opposites disappear completely. Through this music you can experience oneness with the universe and higher beings. Feel your mind opening up inward towards the Source of all dreams and imaginings.

TESTIMONIALS

I did my first session with the new Through the Rainbow CD today and the person saw globes of colour, in different sizes and shapes, floating over her body for about an hour after the session was done. She does not normally see colours that way.

**Richard, Healing Gateways Center
Guilford, CT**

I am enjoying the chakra balancing CD very much. I used it to do a treatment on a client last night and combined reflexology with healing touch and worked on each chakra in unison with the music. The client fell asleep for 50 minutes on the table after the treatment and when she woke up she was so relaxed she could hardly get out the door! I was amazed and delighted! I have also used it to go to sleep at night and wake up in the morning feeling like a new person.

I think the cover design is great and very eye catching.

WHY BUY COLOUR ENERGY'S BEESWAX CANDLES

Our candles are 100% pure natural beeswax and the wick is lead free. The aroma of beeswax emits a beautiful honey fragrance, which cannot be duplicated with paraffin made candles. Also, beeswax burns longer and brighter than paraffin wax.

Pure beeswax is a natural wax that does not contain chemicals. Beeswax is also ecologically safer for the earth as it is not made from petroleum.

NOTE: The oils from natural beeswax form a white "bloom", which can easily be removed by gently wiping with a soft cloth or slowly heating with a hairdryer.

100% PURE BEESWAX CHAKRA CANDLES

Enjoy an elegant, natural honey fragranced, beeswax candle. Each candle is hand rolled from 100% pure beeswax and is slow burning, smokeless and virtually dripless.

Colour-coded candle therapy is ideal to help increase a chakra meditation. Use the candle as a meditation tool by staring at the flame and affirm that chakra's energy potential. Try a different coloured candle every day as part of your daily meditation ritual!

The lighting of a specific coloured candle amplifies its healing vibrations throughout the atmosphere. Staring into the flame of the coloured candle is a great way to strengthen one's meditation intent.

Before burning you can add a few drops of a COLOUR ENERGY's pure essential oil to the top of the candle for a more aromatic fragrance (burning a chakra oil in combination with the colour candle emits a stronger colour energy vibration!).

Available as a pair (two candles) or as a chakra set of 7 different colours.

IMPROVE YOUR HEALTH AND WELL-BEING USING NATURAL LIGHT

Our most important energy source is light, and the entire spectrum of colours is derived from light. We receive light energy through our eyes and skin. This light stimulates our endocrine system, which is connected to our different energy centers.

Through the sun and its light we receive all the colour energies that we need to maintain a healthy body, mind and soul. When something goes wrong or is out of balance, we can strengthen our energy centres through the applied use of colours, which includes full spectrum light sources.

Natural light regulates hormone production by activating the hypothalamus, which governs many of the body's functions such as appetite, mood, temperature and libido. The nature of the light we receive is fundamental to our biological rhythms and health.

MAKE EVERY DAY... A SUNNY DAY!

Create an energizing and harmonious living or work space and increase your well-being by integrating full spectrum light bulbs into your lifestyle! Our LifeBulbs fit into regular light sockets.

Researchers report that full spectrum indoor lighting may favourably affect problems caused by lack of sunlight such as S.A.D., fatigue, depression, eye strain, headaches, hyperactivity, jet lag, sleeping, shift work, winter weight gain, eating and addiction disorders, etc. Natural light is known to help improve concentration, motivation, creativity and self-confidence.

- Economical and environmentally friendly
- Great for S.A.D., depression and in rooms lacking natural sunlight
- Improves reading & working comfort through higher contrast and true colours
- No radio or TV interference
- Flicker free causing no stress on the body
- Lasts 10 times longer, approximately 10,000 hours (which equals 10 ordinary bulbs)
- Consumes 4 times less energy than regular bulbs

TESTIMONIALS

I have to tell you how impressed I am with the light bulb. I felt different in just one day, it's amazing. Please send me out 2 more.

Tab Turner, Windsor, ON

The LifeBulb is the best product of its kind available in the marketplace today. Used as an adjunct with our naturopathic therapies it doesn't require great compliance (other than turning on the light) while effectively addressing the problems of SAD, learning disabilities, visual problems and mood disorders.

**Dr. David Wang, ND

Since I started using the LifeBulb bulbs in my treatment room, I noticed the aura of my client changing to a more balanced state!

Trish E., Creston, BC

I bought the bulbs to use at home... I noticed that my pets temperaments were calmer and my plants started growing like crazy!

K, Michigan

I can't begin to tell you how much I love my new light bulbs. I put it in my office and the difference is unbelievable. Everybody should experience that kind of light. I heartily endorse it and you can say so to whoever you like.

WHY WOULD I USE COLOUR ENERGY GLASSES?

We receive 90% of our information through our eyes. Therefore, when we wear certain colours of lenses in eyewear, we are able to see and feel the world through that colour. Simply by wearing the "COLOUR ENERGY" Glasses, the distribution of energy and harmony in the body is influenced (directly by that colour) since the colour acts through the eye directly upon the our body's physical, mental and emotional system helping us to improve our overall state of being.

TESTIMONIALS

... I have used BLUE to contain and control fever in a child. I have used YELLOW on a child who was studying for an exam and saw instant change in the child's concentration. I have used TURQUOISE to calm a child's fears. I continue to find benefits every day! I have a reason why I HAVE to use them every day.

Judith Ann, Miramichi, NB

I am highly impressed with your company and products. There's no way I would do without my Sundance glasses. They have proved to be ESSENTIAL to me, whether it is for relaxation, energizing, feeling cool in our Texas heat... on and on. Super glasses!! And such fun to wear... so interesting to view life through these different colors. Gives you a different slant on things.

Gayle Amis, Dallas, TX

PRISMA COLOUR ENERGY® EYE GLASSES

Seeing is believing! And visually wearing colour instantly stimulates your optic centre, which then triggers a hormonal response within your body. An excellent alternative to replace regular "non-energy-giving" sunglasses!

Wearing glasses of a certain colour can stimulate your body's energy centers to react and activate body functions on either an emotional, mental, physical or spiritual level. For example, Yellow is known to cleanse the body, increase concentration and spiritually uplift. Yellow is also the best colour for long distance driving and it helps cut down glare from on-coming cars. Red is beneficial for sports enthusiasts to strengthen, increase endurance, ground and to help tap into extra energy. Whereas, Violet helps to induce a deep and relaxed state, ideal for people suffering from sleep disorders. The benefits are endless... experience them for yourself! 100% UVA & UVB coated means they can be worn as sunglasses as well.

AURAMED'S® SKIN CARE PROGRAM

Auramed is a leader in the field of bioenergy research of the human being as a whole. Internationally, Auramed is recognized for its revolutionary products that analyze and harmonize the energetic condition of the body.

Recently, Auramed developed a holistic cosmetic concept based on the results gathered from the Biopulsar's energetic analysis. Many skin care programs are not created to support the internal body, which in essence is reflected in our external image. However, using state-of-the-art technology combined with a newly discovered nano process, Auramed has introduced an innovative skin care program!

Auramed fluids and crèmes contain nano silica. Silica is an essential mineral and a known construction material for skin, hair, nail and connective tissue, and silica in nano size allows for the silica to deeply penetrate the cell layers.

Silica is an ideal carrier of colour light signals and therefore utilizing the Chromalive Colour Therapy Penlight together with Auramed's cosmetics, is an advanced skin care program. As well, the application of Auramed's skin care line has proven to be very effective on its own.

CHROMALIVE® – THE REVOLUTIONARY NEW LIGHT THERAPY SYSTEM FROM EUROPE. ONLY AVAILABLE THROUGH COLOUR ENERGY CORPORATION

CHROMALIVE® LIGHT TECHNOLOGY

To understand the effectiveness of Chromalive Colour Therapy, one must realize that intelligence exists within the body and beyond human comprehension. Every cell at the DNA level communicates with other cells in the body through a sophisticated language of colour light. By using the universal language of colour, imbalances within the body—which exist at the molecular level—can restore health to each cell.

Chromalive Colour Therapy is an advanced treatment that can improve one's overall wellbeing by balancing the body's natural energy frequencies. Chromalive Colour Therapy helps to restore mental, emotional and physical equilibrium.

CHROMALIVE COLOUR LIGHT THERAPY

Chromalive Therapy treatments are based on Eastern medicine philosophy. The bioenergies (Yin and Yang) become imbalanced if our daily life is constantly stressed. Resultant of too many stresses, the balance of our life energy flow becomes disturbed, illnesses can manifest and the aging process is accelerated. Through the treatment of colour light therapy on the reflex zones or acupuncture points, the bioenergy of the cells and the meridians (energy paths) can be corrected. Subsequently the physical, emotional and mental blockages dissolve and a sense of well-being is restored. Chromalive uses the energy of colour that is amplified with crystalline energy, giving a deep cellular treatment.

CHOOSE FROM 3 DIFFERENT CHROMALIVE PENLIGHT SETS: BASIC, ELITE GOLD AND ELITE SILVER

Each Chromalive Penlight Set includes: One Penlight and 7 colour filters in the colours of Red, Orange, Yellow, Green, Turquoise, Blue and Magenta; Instruction Booklet; durable Auramed carrying case. Also available in Silver (Stock #70804)

THE NEW BROAD QUARTZ CRYSTAL DESIGN

Chromalive's new broad tip design allows for wider colour light disbursement. The punctiform tip is ideal for specific zone treatment as the emitting light is a pinpoint frequency. Whereas, the broad tip's circumference is approximately 2.5cm/1 1/16" wide, which is excellent for anti-aging facial treatments or full body meridian massage. The specially designed smooth crystal on both the punctiform and broad tip allow for a treatment directly on the skin's surface and by touching the skin the treatment is enhanced through a reflex zone stimulation. This feature is unique to the Chromalive Penlight!

BIOPULSAR® SPA WELLNESS SYSTEM

For a more personalized colour therapy treatment, it is necessary to accurately measure the energy condition of the client's body. This is done quite simply by using the Biopulsar Wellness System as your assessment tool in conjunction with the Chromalive Penlight.

Using the latest electronics, the bioenergetics of the organs and glands are measured via the reflex zones of the hand and processed by the Biopulsar's software program. Within a few minutes of a hand being placed on the Biopulsar's sensor board, you will see a complete energetic profile displayed on your computer screen (see picture below). The Biopulsar's program shows the energy colours of the individual organs and the energy field of the whole body.

In addition to the biofeedback data, the chromatic therapy instructions are displayed. Individual colour treatments are illustrated for each organs' corresponding face and/or hand reflex zones. Once the body's bioenergetics are measured and displayed then you can apply the corresponding therapy colours over the reflex zones using the Chromalive Penlight. The Chromalive Penlight was especially developed for light therapy applications and is also sold separately.

Biopulsar Spa Wellness System includes:

Single Right Handplate, Aura, Chakra and Chromalive Softwares, Chromalive® Basic Penlight Set & Instructions. Stock # A4111

BEAUTY AND WELLNESS TREATMENTS IN 3 EASY STEPS USING THE BIOPULSAR TECHNOLOGY WITH COLOUR THERAPY...

chromalive®

STEP 1: BIOFIELD ANALYSIS

The client puts her/his hand on the Biopulsar handplate and within 1-2 minutes an accurate energy analysis of all organs over the reflex zones is measured and shown graphically on the monitor in the corresponding energy colour.

STEP 2: THERAPY INSTRUCTIONS

Using the Chromalive software, follow the instructions for the Chromalive beauty and wellness treatment. For each organ a picture is illustrated that shows the precise reflex zone in either the face and/or hand for use of the colour therapy penlight.

STEP 3: TREATMENT

The Chromalive Penlight is then applied with the balancing colour over the respective reflex zone in the hand or face for a short radiation treatment and/or massage. Using this method of colour therapy the energy field can be regulated immediately and the results can be seen on the Biopulsar!

PLEASE CALL FOR PRICING & ADDITIONAL INFORMATION

NOTE: The Biopulsar System is available in various configurations. From our basic configuration you can progressively add options as desired to expand the functionality of the overall System.

Research has shown that cells not only radiate colour, but can also receive colour. Using reflex zones and acupuncture points as a point of entry for colour, the body's mechanisms seem to respond to and develop with "colour energy." The German physicist Dr. Fritz-Albert Popp proved that the cells of all living beings emit "biophotons" (also referred to as light quanta). This radiation represents a regulating energy field, which influences the total biochemical processes within us.

TESTIMONIALS

After 10 years of chronic pain in my neck from an auto accident I am almost completely pain free after three days of treatment using the Chromalive Penlight.

BIOPULSAR-REFLEXOGRAPH® SYSTEM

The Biopulsar-Reflexograph is the most advanced aura diagnostic tool in the world! The Biopulsar is a simple and accurate method of analysis for the health care practitioner. As well, the Biopulsar technology can be used as a bridge to integrate conventional and alternative methods.

This incredible holistic reflex-zone biofeedback system reads the energy of 46 organs, which then expresses the body's vitality in colour and in several graphic formats. The system shows the full body aura as well as the energy of the chakra system and the vitality of 46 organs (including 8 brain parts).

WHO CAN USE THE BIOPULSAR-REFLEXOGRAPH?

The Biopulsar biofeedback system is highly beneficial for medical doctors and a wide variety of alternative practitioners. The reliability of the organ biofeedback is superior in comparison to other more expensive diagnostic tools with less reading capabilities. The advantage of the Biopulsar is its cost as well as its ability to integrate a conventional examination with a holistic diagnosis and approach. In fact, no other technology is as accurate or so deeply accesses the "colour" psyche of an organ and its health, as the Biopulsar.

Proven through various sciences of body language we know that organs possess a consciousness and that they react to thought and emotion. This consciousness is stored in every cell of the body and is detectable by using the Biopulsar technology. The Biopulsar-Reflexograph complements any holistic business and is a powerful tool in showing how the mind interacts with the psyche of the body. Therefore, the Biopulsar is an excellent tool to validate your treatments, products and services! (And clients appreciate the visual – seeing is believing!)

Good health is essential for a long and happy life; however, we usually only appreciate its importance when we feel poorly. Early detection of imbalances in the body can prevent problems later including premature aging. This is where the Biopulsar-Reflexograph System can contribute to one's good health through its reliable early screening technology.

The Biopulsar System allows you to monitor your client's vital organs regularly, which will help you detect imbalances and treat any energetic problems before they manifest on the physical level!

WHAT IS THE PURPOSE OF THE BIOPULSAR-REFLEXOGRAPH?

The purpose of the Biopulsar-Reflexograph is to establish an accurate evaluation of the body from a physical perspective as well as an energetic viewpoint. Until the development of the Biopulsar technology there has been no other measuring device that connected specific organs to the human electromagnetic energy field.

TESTIMONIALS

... Chronic sickness in the organs always shows, and is also confirmed by new patients. The results were also constant, when placing the left hand repeatedly on the machine. This means that the arrangement of the measuring points are reliable. Another point is the repeated measurements. Here it shows clearly which organs and chakras are chronically stressed and the therapeutic success or failure is documented. A great help for necessary therapeutic adjustments... The accuracy of the test of the chakras also seems to be correct... again and again, it shows that the psychology of the prime colours were confirmed by the patient.

RAINBOW SERPENT

This incredible Alchemy Essence was created to awaken the Kundalini (Serpent) energy. Often our vital energy lies dormant at the base of the spine until it is called into action. The Rainbow Serpent Essence will help lift one's Kundalini up the spine, touching and invigorating all of the physical Chakras together with their appropriate colour energy frequencies. Thus, allowing one to utilize and access one's higher levels of consciousness to attain enlightenment.

This spray Essence can also help to bring about a deep alignment of all the chakras, releasing any hindrances that may be retarding one's growth. However, if the energy stops and becomes stuck, it can be released by applying the appropriate Chakra Light Essence or Massage Oil.

CHAKRA LIGHT ESSENCES

The language of light and colour alters the memory and substructures of our inner cosmic language, affecting our physiological, neurological, biochemical and cosmological levels of thought and attunement to facilitate human life to enjoy the exciting new dimensions of being.

The key to this awareness is encoded within colour and other harmonic structures such as essences and gemstones. Also the unity of your entirety is resultant of connecting the body and mind to other levels of consciousness – aligning your chakras. Bringing the chakras into harmony requires some chakras to be energized and this can be simply achieved through the use of our high frequency Essences. TESTIMONIALS

I wish to tell you that some of my clients have had some major breakthroughs using the Chakra Essences. At the moment only working regularly with base (red). In any case, I am excited to use the Essences. You have such a great company. I feel privileged to work with you. Thanks,

Rhonda Day-Kooy, Blue Feather Books, IL

I'm loving the Chakra Light Essences and have been passing the small brochures on to other healers. Hopefully this will generate sales of the kits. My husband and I are doing some experimenting with them.

KARMA & CHAKRA LIGHTS

The messages that are carried via the Karma and Chakra Lights are accepted into the skin via the special oils and essences to be released to their predetermined multi-dimensional parameters. Each of the Essences and Oils have a delicate aroma to aid in the empowerment of harmonizing the physical body via the olfactory senses.

ALCHEMY is a method to transform matter. COLOUR ENERGY'S ALCHEMY LINE consists of cosmic elixirs that were made to prolong one's existence at an optimal energy level of being.

ESSENCE is the intrinsic nature or indispensable quality of something. COLOUR ENERGY'S ALCHEMY ESSENCES contain quintessential universal components required to heal body, mind & spirit.

KARMA is the sum of a person's actions in this and previous states of existence, which is believed to impact one's fate in future existences. KARMA LIGHT ESSENCES were created to help a person stay connected to their purpose and path.

KARMA LIGHT ESSENCES

The Karma Light line is designed with a specific pattern link to reorganize the Karmic program that you have been working with and learning from. These Essences are highly imprinted to transfer codes, patterns and harmonic structures for the repatterning and harmonizing of your many subtle levels, including past life links. Also helps to clear specific blockages and to re-establish your inner "Blue Print." Clears negative Karmic energy and replaces it with positive energy pathways.

TRANSMUTE – Helps clear "personal" hindrances to achieving one's life purpose by initiating transformation on different levels of consciousness. E.g. behavioural patterns such as insecurity and doubt, subconscious blocks that one is unaware of, as well as "Karmic" conditions that are no longer relevant.

TRANSITION – Eases fear, protects from disturbing influences and promotes coming to terms with relationship problems. Learning to make peace by promoting acceptance, forgiveness and love. Helps support transitions in life such as retirement, moving, job loss and death. Attunes one with her/his spiritual levels.

RELEASE – Activates the release of stored emotional patterns such as shock, anger, fear etc. from recent or past experiences including: pre-birth and birth trauma; psychological 'crutches' and phobias which prevent one from advancing in a balanced way; and physical toxins stored in the tissues.

RE-NEW-AL – Is patterned to respond to distorted genetic coded information linked to past life experiences, helping to clear blocked pathways to re-establish more tenable links to this particular lifetime.

COMFORT – Provides emotional balance and support for those who are grieving the loss of a loved one, a relationship, work, etc. This Essence is patterned to help one personally deal with grief and brings easier acceptance of the loss.

CHAKRA LIGHT MASSAGE OILS

The Chakra Light range of massage oils has been developed and energized with a code storing and transmitting function, so as to work through the total being on its many levels of consciousness, passing coded messages primarily to facilitate harmony with the physical. Chakra Lights massage oils are based on superfine receptive mineral oils, which have a very good memory to be able to carry their projected programs with integrity, to be released on the appropriate levels. Helping to unlock blocks, as well as accessing one's higher levels, which can then produce energetic responses from one's cellular levels.
