INTRODUCTION TO COLOUR ENERGY

Excerpt taken from the "Introduction to Colour Energy" Booklet

Colour is more than decoration and pleasure to our eyes. It is light—light split into different wave lengths, vibrating at different speeds and frequencies. An object that absorbs all wavelengths and does not reflect any is called black—and an object that reflects everything is white. Between black and white lies our colour world.

Colours are wavelengths of energy that to us appear as colours because of the potential and capability of the object to either absorb or reflect the energy. This is how we experience colour. An apple is red because it absorbs all colours except red. Red also has the longest wavelength of all the colours.

The strangest thing is that scholars ignore the colour energies and do nothing with the most exciting and beautiful things we have in front of our eyes—but they have accepted the short and long wavelengths on either side of the visible colour spectrum.

Chakra is the most frequently used and descriptive word for energy points or whirls of energy. The chakra points do not exist in our physical body but in our etheric body. Here the cosmic energy enters and connects our body with the energy coming from the earth. These energy whirls are in contact with our physical body through points explained as:

Crown chakra	Violet energy
Brow/Third Eye chakra	Indigo energy
Throat chakra	Blue energy
Heart chakra	Green energy
Solar Plexus chakra	Yellow energy
Spleen chakra	Orange energy
Root chakra	Red energy

These points are what it is all about—either physically, mentally, emotionally, or spiritually. If these points are healthy and in balance, then we are healthy. It is important when you are going to transfer energy from one chakra to another that you know what colour is the complementary colour, i.e. with what colour you may be adjusted.

COLOUR	COMPLEMENTARY COLOUR
Red	Blue
Orange	Indigo
Yellow	Violet
Green	Red
Blue	Red
Indigo	Orange
Violet	Yellow

To learn more about the power of colour and the meaning of each colour read the "Colour Energy" Book or "Introduction to Colour Energy" Booklet, written by international colour expert Inger Naess.

Colour Vibration & the Zodiacal Signs

CAPRICORN – INDIGO

DECEMBER 22nd - JANUARY 19th

IN INDIGO LIES THE UNDERSTANDING OF THE LIFE PROCESS –THE MEANING OF ONE'S LIFE.

Capricorn is a mystery sign possessing profound insights. In its INDIGO energy emerges the secrets of the midnight sky and the universe as well as the glory of the supernatural. People born under this sign of the INDIGO ray are empathetic and quite connected to their innate intuition. INDIGO is the energy of the reformist. On an energetic level INDIGO helps us to understand and see things from new perspectives.

Indigo is the energy that connects to the Brow (Third-Eye) Chakra.

This birth sign is concerned with the unseen and spiritual illumination... to help others understand the true significance of their soul's existence.

We suggest INDIGO tools to help one access their potential and to see the beauty and love that surrounds them! To connect to the INDIGO energy use tools such as relaxing teas (e.g. blueberry tea), meditation music, INDIGO candles and the INDIGO COLOUR BATH.

Essential oils that correlate to INDIGO are patchouli, frankincense, myrrh or Colour Energy's soothing INDIGO Chakra Synergy Blend. The gemstones that stimulate the brow centre are amethyst, quartz crystal or tanzanite. Eggplant, broccoli, purple onions, currants, prunes and blackberries are the INDIGO energy.

AQUARIUS – VIOLET

JANUARY 20th - FEBRUARY 18th

VIOLET IS THE ENERGY OF OUR BELIEF SYSTEM AND FOCUSES ON WORKING FOR A HIGHER PURPOSE.

Aquarians have a spiritual mind and can be quite connected to their creative and inventive VIOLET energy. It is the birthright of one whose consciousness is in contact with the new and undiscovered truths. Aquarians promote group work and are good at uniting people together for humanitarian or spiritual issues. They believe in the ideal of oneness of the whole and wholeness in the one. Aquarians are visionaries, but they have to remember to stay grounded.

VIOLET is the energy of our top chakra—the crown centre—and reflects the energy of knowingness and spiritual connection.

Use the VIOLET energy to create and manifest new beginnings. VIOLET accesses the universal energy, which then gives us a creative flow of energy for new ideas and it nourishes artistic talent and inspiration. This calming and beautiful colour is also known to help with insomnia, headaches and eczema. VIOLET is known to be an anti-bacterial cleanser; ideal for skin rashes or burns (including sunburns).

Other VIOLET energy forms are lavender, jasmine and camphor essential oils; or Colour Energy's divine VIOLET Chakra Synergy Blend. Eggplant, plums, kale, broccoli and purple grapes are a few of the purple foods. Amethyst and Quartz Crystal are both related to the higher energies as they open us to the heavens, our higher self and God (ideal for meditation purposes).✿
